OMKAR PATTANAIK

PROFESSIONAL SUMMARY

Delivery-focused Analyst with 6+ years of enterprise software experience at Tata Consultancy Services. Managed two Scrum teams of 8 and 7 members, delivered a mobile application in 14 days against a 15-day CHRO deadline and led an Azure migration that cut hosting costs by 35%. Executive MBA (XIMB, 2026) with coursework in Project Management.

SUMMARY OF QUALIFICATIONS

- Agile / Scrum delivery on an enterprise learning platform serving 200,000+ employees, with release management and quality assurance.
- Works with senior stakeholders, including the CHRO, third-party learning providers and cross-functional engineers to deliver against tight deadlines and compliance requirements.
- Focus on cost and risk: 35% lower hosting cost through cloud migration, zero-downtime cutovers and TCO analysis.

WORK HISTORY

Company**: Tata Consultancy Services (TCS)**

IT Analyst - Scrum Lead, 07/2024 – 07/2025

- **Managed two Scrum teams** of 8 and 7 members on the platform, working in Jira, Jile and Confluence.
- **Delivered a mobile competency tracking application** for 200,000+ users in 14 days against a 15-day CHRO deadline, saving 6 months of engineering work and earning the **Beyond Excellence Award**.
- **Led a 4-engineer team to move core modules** from Angular 6 to Angular 18 for security compliance: proof of concept in a sprints, production build in 3 months with zero downtime.
- **Led the migration from Azure Virtual Machines (IaaS) to Azure App Services (PaaS)**, refactoring JBoss to Tomcat and adding Jenkins CI/CD. Cut hosting costs by 35% with zero downtime.
- **Managed 3rd Party Platform and Kong API Gateway integrations.** Served as primary Internal Quality Assurance approver, introducing code-review checklists and peer coaching.

Systems Engineer - Senior Developer| Tech Lead, 12/2021 – 07/2024

- One of two core developers for the HR platform linking employee skill achievements to compensation and appraisal scoring.
- Replaced manual releases with Jenkins pipelines across cloud VMs and PaaS, cutting deployment time per release cycle by 40%.

Assistant Systems Engineer - Developer, 02/2019 – 11/2021

- Built Angular (TypeScript, SCSS) front ends and Java Spring Boot REST APIs. Managed PostgreSQL and Redis schema updates and query tuning.
